

Summer Stewardship Kit

Help your church live stewardly all summer long!

TREES (Creation Care)

Clean up your city or township!

- **Adopt a Street or Highway;** Give back to your community and keep the roadways clean. Some cities will even post your organization's name on the specific street you've committed to keep clean!
- **City/Park Clean Up;** Many cities have designated days or months you can join other or you can start your own! Start with keeping the area around your church spic and span!

Treasures

- **Beating the Summer Giving Slump;** Do your weekly offerings "take a dip" in the summer months? Here's a letter you can send to your congregation to encourage faithful giving even while they're at the beach this summer! ([Sample letter to congregation](#))

Time

- Do devotions outside in nature
- Visit someone who's sick or lonely

Talents

- All of the above activities are a way you, your church members, and your community can use the gifts and abilities God has given you!

Check out our website for more ways to live stewardly this summer... and all year long! We have suggested websites and books, an online Stewardship Course, helpful handouts, and more!
